

PARTY HOST QUICK GUIDE

Everything you need to run your own 30-45 minute Sugar or Spice party.

THANK YOU FOR BOOKING WITH US!

Your party is about to get sweet, spicy, and unforgettable.

HOST IN FIVE EASY STEPS

1

Redeem your private code

Open the Host a Game page and enter your one-use Party Host Code. The 24- or 48-hour room clock starts when the room is created.

2

Keep the host controls open

Use the same browser and device for the party. You do not need the Sugar & Spice owner PIN.

3

Invite your players

Show the QR code or share the 5-character room code. Guests join on their phones, choose a nickname, and pick a character.

4

Run six rounds

Each round has two quick votes, one funny open answer, and an optional sip break. Use Reveal and Continue when the room is ready.

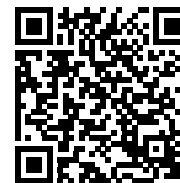

5

Finish with the Cookie Jar

End the game, then spin the name wheel and prize wheel. A Free Spin gives the same winner another prize spin.

HOST REMINDERS

- Give guests 3-5 minutes to join before starting.
- Passing is always okay. Sip, water, or no drink is always okay.
- Keep the Party Host Code private. It creates one room only.
